HO-27-1

MetaLock Knotless PK™

Feature

- Lateral row anchor
- Tap-in screw insertion type
- Effective bone in-growth
- Easy to Implantation
- Less bulk, less volume
- Optimized suture-bridge technique
- Wide eyelet that pass up to six sutures

PEEK-OPTIMA™ reinforced offers enhanced mechanical and physical properties compared to the base polymer, making it suitable for more demanding load-bearing applications that are currently beyond the capability of PEEK-OPTIMA™ natural.

Instrument

3.8mm awl
